

If you have an infant or very young child that is not talking:

Babbling (making vocalization sounds) is an important stage in a child's language development. Before a child can say words he needs to be able to make the more basic sounds that make up words. That is where the abc book is beneficial. Just take a minute or two reading this book to your child each day. Have fun and exaggerate (be silly) saying the letters and the sounds they make. As the months pass your child will probably try to imitate you. Our own experience is that it was over a year before our daughter responded.

When printing set the page scaling to actual size (100%). Do not shrink to fit.

If your child is already saying words:

If your child is already at the stage of development where he is saying words, then he will probably not find the abc book very interesting. If that is the case just use the word picture books from Learning Kit #1. The video teaches the letters and the sounds they make a number of times in a more interesting way than we can in this book.

IMPORTANT INFORMATION

Spend only a minute or two a day with this book. Read it once each weekday with your child. If your child will not sit for the complete book, read only the first five letters until he is able to attend to more.

Always use this book in a loving and caring way -never drill your child.

More than anything else, we want to give your child a good feeling when reading this book. This good feeling will be the foundation on which we will later build.

WARNING: AS WITH ALL PAPER PRODUCTS, USE WITH PARENTAL SUPERVISION, MAKING SURE YOUR CHILD DOES NOT CHEW ON THIS BOOK. Also, keeping the book out of reach will help keep it special, something to be shared with Mom or Dad

Remember this is a long term process but well worth the small amount of time it takes each weekday.
